

Highmark Coverage Advantage Inc – Individual Plans

Rate request filing ID # HGHM-134504774 – This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at <https://www.insurance.pa.gov/Consumers/HealthInsuranceFilings/Pages/ACA-Health-Rate-Filings.aspx>

Overview

Initial request average rate change:	14.06%
Revised requested average rate change: ¹	14.06%
Range of requested:	9.43% to 22.71%
Effective date:	January 1, 2026
Mapped members:	31,165
Available in:	Rating Areas 1 and 4

Key Information

Jan. 2024 – Dec. 2024 financial experience

Premiums	\$144,955,708
Claims	\$124,080,432
Administrative Expenses	\$21,053,816
Taxes & Fees	\$4,530,609
<hr/>	
Insurer made (after taxes)	\$-4,709,150

How insurer plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2026

Claims:	85%
Administrative:	12%
Taxes & Fees:	3%
Profit:	0%

The insurer expects its annual medical costs to increase 9.3%.

Explanation of Requested Rate Change:

The primary drivers of the rate increase are cost and utilization trend and morbidity impacts of the expiration of the enhanced advanced premium tax credits.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

May 15, 2025

Harrisburg, PA 17120

Re: Highmark Coverage Advantage (HCA) 2026 ACA Rate Filing (Small Group Market)
HCA Filing # 1A-SG-HCA-2026 (SERFF Filing # HGHM-134511838)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached Highmark Coverage Advantage 2026 Small Group Market Rates Filing contains Trade Secret and Confidential Proprietary Information. Therefore, Highmark Coverage Advantage must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by Highmark Coverage Advantage should be redacted before release.

Dear Ms. Swartz:

This Filing includes the Highmark Coverage Advantage (HCA) (NAIC # 15507; HIOS Issuer ID # 79279) Small Group Market Off Exchange ACA rate filing and the supporting rate development for policies with effective dates on or after **January 1, 2026**.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested as per the Department’s 2026 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

1. Company Name & NAIC #: **Highmark Coverage Advantage, NAIC # 15507 (“Company”)**
2. Market: **Small Group (“Market”)**
3. On or Off Exchange: This Company’s products are offered **Off Exchange only**
4. Effective date of coverage: **January 1, 2026**

5. Average rate change requested: **16.9% rate change**
6. Range of rate change requested: **13.2% to 19.4%**
7. Total additional annual revenue generated from the proposed rate change: **\$20,622,986**
8. Product(s): **PPO**
9. Rating Areas and the change from 2026: **Regions 1, 2, 4, 5, 6** (Western PA only)

There are no changes in our covered Rating Areas from the 2025 rate filing.

10. Metal Levels and Catastrophic Plans: This filing reflects that the Company anticipates selling the following Metal Levels of coverage in the indicated Market: **Platinum, Gold, and Silver**
11. Current number of covered lives and of policyholders as of February 1, 2025: **17,916 covered lives; 10,238 policyholders**
12. Number of plans offered in 2026 and the change this represents from 2025: **28**

The company offered 28 plans in 2025.

Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

13. Corresponding contract form number, SERFF and Binder ID numbers: The corresponding SERFF binder number is **HGHM-PA26-125119965** affecting the following Company products and forms:

Product Name / Type	Contract Form & SERFF #
PPO Blue	CERT-HCA-PPO-SM-2026; HGHM-134512766
PPO Blue Qualified	CERT-HCA-HDHP-SM-2026; HGHM-134512783

14. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID # 79279, Company Filing # 1A-SG-HCA-2026 (SERFF Filing # HGHM-124511838)**

Additional Filing Disclosures

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required

Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. For the Department's benefit, the Excel files have retained their formulas to the extent possible.

CMS has instructed issuers that it no longer requires any interim changes to the URRT to be submitted.

Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), material provider contracting changes, or changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts. As a result, the Company reserves the right to submit a revised filing.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of Highmark Coverage Advantage if disclosed to the public.

Public disclosure of any information contained in this Filing would allow Highmark Coverage Advantage competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Small Group market, and could have negative consequences for the operation of Highmark Coverage Advantage's business. Therefore, Highmark Coverage Advantage asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential and proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), Highmark Coverage Advantage must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, Highmark Coverage Advantage asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the Highmark Coverage Advantage RTKL representative identified below prior to release of any information contained in this Filing:

Pennsylvania Actuarial Memorandum

Notable Changes from 2025

In aggregate, Highmark Coverage Advantage’s 16.9% rate increase is mainly driven by 5% due to restatements in the base period from the projected 2024 amount at the time of the 2025 rate filing, 2% due to higher projected trends in 2025 than anticipated at the time of the 2025 rating filing, and 12% due to projected trends in the experience period and anticipated loss of rebate value.

1. Basic Information and Data

A. Company Information (Table 0)

Table 0 of the PA Actuarial Memorandum Exhibits has been completed as per the instructions. Please refer to Excel file “PY2026.PAActuarialMemorandumRateExhibits_HCA_05152025.xlsx” submitted with this filing containing the department’s required tables. General information pertaining to this rate filing is summarized below:

- Company Name: Highmark Coverage Advantage (HCA) (“HCA”, “Company”)
- NAIC #: 15507
- HIOS Issuer ID: 79279
- State: Pennsylvania
- Market: Small Group
- Rating Area: Pennsylvania Rating Regions 1, 2, 4, 5, 6
- Effective Date: 1/1/2026
- SERFF Rate Filing #: HGHM-134511838
- Current number of covered lives and of policyholders as of 2/1/2025: 17,916 covered lives; 10,238 policyholders
- Metal Levels: Platinum, Gold, Silver

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company’s expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2026. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA. As a result, HCA reserves the right to submit a revised filing.

B. Rate History and Proposed Variations in Rate Changes

The most recent three years of historical rate changes in the Pennsylvania Small Group Market for the Company are as follows:

Period	Avg. Increase	SERFF ID#
2025	9.5%	HGHM-134080997
2024	5.6%	HGHM-133668340
2023	2.4%	HGHM-133250437

The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These components are re-evaluated each year to keep pace with market changes and changes in health care costs. For 2026, the Company’s proposed rate revisions vary by plan according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

C. Average Rate Change

The average rate change from Table 11, Cell AN13 is 16.9%. The rates shown in Table 11 apply the Geographic Area Factors to the Table 10 calibrated index rates.

The Company’s estimate of the drivers of the rate change is provided below:

	Drivers of Rate Change	Factor
a.	Base Claims Experience	10.6%
b.	Morbidity	1.7%
c.	Non-System Claims	1.1%
d.	Risk Adjustment	-1.3%
e.	Projection Year Trend	4.9%
f.	Benefit Pricing, Benefit Richness, & Network	1.3%
g.	Retention (Admin, Taxes, and Fees)	-1.5%
h.	Other	-0.5%
i.	Total $i=(1+a)*(1+b)*(1+c)*(1+d)*(1+e)*(1+f)*(1+g)*(1+h)-1$	16.9%

a) Base Claims Experience represents projected 2024 claims from the 2025 filing vs 2024 experience. Base Claims are the Allowed BEP claims adjusted for paid-to-allowed factors and benefit richness.

- b) Morbidity represents the change in morbidity from the 2025 to the 2026 filing.
- c) Non-system claims factor represents the change in non-system claims from the 2025 to the 2026 filing. It includes claims processed outside the Company's claims system, such as Rx rebates and settlements.
- d) Risk Adjustment is the change in impact of risk adjustment from the 2025 filing to the 2026 filing.
- e) Projection Year Trend is the change from the 2025 rate filing trends to the 2026 rate filing trends.
- f) Benefit Pricing, Benefit Richness, & Network represents the change in expected paid-to-allowed ratios and benefit richness factors in the 2026 product portfolio vs the 2025 product portfolio as well as changes in network factors from the 2025 filing to the 2026 filing.
- g) Retention represents the change in Retention (admin, taxes, fees) from the 2025 to the 2026 filing.

For comparison, the change in 21-year-old non-tobacco premium PMPM calculated in Table 10, Cell AC15, is 15.8%.

The primary drivers of the 16.9% rate increase can be seen in the Table 8 results of the Pennsylvania Actuarial Memorandum exhibits.

D. Membership Count (Table 1)

Table 1 has been completed according to the instructions with the average age, age breakdown and total number of members or member months, as indicated in the table. For the 2/1/2025 data, this table reflects all the Company's Small Group ACA enrollment, including enrollment from 2024 and 2025 plan year plans.

E. Benefit Changes

Some plan designs were changed due to a re-evaluation of benefit designs and marketing considerations.

For the 2026 plan year, there were minimal benefit changes necessary to the Company's plans to cover the benefits contained in the state's Essential Health Benefit (EHB) benchmark plan.

F. Experience Period Claims and Premium (Table 2)

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2024 calendar year results for all Affordable Care Act compliant policies in the single risk pool, with run out through February, 2025 (2 months). This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary). As per the 2026 ACA Rate Filing Guidance, transitional policy experience was not included in either the Table 2 or Table 4 data.

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- The Allowed Claims represent the Company's best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
 - 2 months of run out from the end of the experience period,
 - Claims processed outside of the Company's claims system (e.g., settlements), and
 - The best estimate of claims incurred but not paid as of the end of the run-out period.Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates on their appropriate basis, while Table 2 has the Prescription Drug Rebates separately identified and grossed up by the experience period paid to allowed ratio. As per the URR instructions, Allowed Claims do not include reinsurance recoveries or pooling charges, nor do they include quality incentive payments.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period. However, for entry into Table 2, the Prescription Drug Rebates are grossed up by the experience period paid to allowed ratio since they are ultimately used to reduce allowed claims. This allows for the Table 2 results to feed into Table 5 without adjustment, but it does cause the calculated loss ratio in Table 2 to be slightly mis-stated.
- There are no non-EHB benefits or costs in the experience period.
- The Company does not have any benefits covered under a capitation arrangement. As such, Table 2 shows \$0 for Total EHB Capitation and Total Non-EHB Capitation, and the experience period index rate PMPM for capitation shown in the URRT is \$0.00 PMPM.
- The Estimated Risk Adjustment is the Company's best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period.
- The calculated loss ratio is 94.3%. This number is slightly below the actual loss ratio due to the adjustments to prescription drug rebates described above.

G. Credibility of Data (Tables 2b, 3b, 4b)

The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably "A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing (December 2015)¹," as well as utilizing actuarial judgment in consideration of the Company's base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership for the active population for this Company is 15,518, full credibility has been assigned to the base experience period.

H. Trend Identification (Table 3)

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

To arrive at the medical and prescription drug trend assumptions, the experience period cost and utilization data for each claim type were pulled from the Company's claims systems by the defined benefit categories. For the trend components development, the Company uses results from the combined experience of the following companies within the Highmark corporate family: Highmark Inc. and Highmark Coverage Advantage. The combined experience used is limited to the Company's Rating Area and Market and provides a more material base to analyze the trend components impacting the business in the Company's Market. The medical and prescription drug trend developments each use a projection of allowed claim PMPMs that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or anticipated, are factored into the cost components of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

The allowed medical and prescription drug claims used for the development of their respective trends are adjusted and normalized to obtain a claim basis appropriate for trend development. These adjustments may include changes for in-network provider contracting levels, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates may normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. The types of adjustments for medical and prescription drug vary slightly but are chosen based on the appropriate normalizations required for each respective claim type. The normalized and adjusted claim progressions are then used to provide the basis for the Company's trend regression models, which are used to separately establish the Company's medical and prescription drug rating trends.

The regression trend models are used to smooth out noise in the historical claim levels and to provide an appropriate jumping off point for projected claim levels. Using the factors discussed above to adjust projected claim levels, appropriate assumptions for medical and prescription drug trends were established using the experience period claim levels as the starting points. Since historical experience would encompass the expected coverage and demographic makeup of the

membership, historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trends for this block of business.

For the rate development, the Company uses separate medical and prescription drug claim trends and applies them to the appropriate claim types in the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Based on a review of the projected normalized annual trends for 2025 and 2026, a medical claim trend of 9.61% (4.75% cost; 4.64% utilization) and a prescription drug claim trend of 9.66% (7.20% cost; 2.30% utilization) were selected for the 2026 rate development. Please refer to the “Trend Support” exhibit in the “2026 Supplemental Exhibits - HCA_05152025.xlsx” file showing the historical and projected normalized claim values for the Company’s medical and prescription drug trend determinations, along with the Company’s proposed base medical and drug claim trends.

In addition to the base medical and prescription drug claims trends discussed above, the trends illustrated in Table 3 reflect changes in anticipated costs for claims processed outside of the Company’s claims system, including Rx rebates and settlements. After the trends for the claims processed outside the Company’s claims system are weighted in with the base medical and drug claim trends, we arrive at a medical trend of 9.32% (4.60% cost; 4.51% utilization) and a prescription drug trend of 14.92% (11.11% cost; 3.43% utilization), as seen entered in for the Year 2 trend on URRT Worksheet 1. This trend is the trend entered into Table 3 for non-capitated services.

The Company does not have any benefits covered under a capitation arrangement. As such, the capitation trend rate shown in Table 3 is 0.00%.

The quarterly rate trends are developed so that the resulting rates more appropriately reflect the claim costs and administrative charges expected in the quarterly rating periods, including the distribution of renewals expected within a rating quarter. Please see the “Quarterly Trend Support” tab in the “2026 Supplemental Exhibits – HCA_05152025.xlsx” file, which develops each quarterly trend factor from the annual trend assumption.

I. Historical Experience (Table 4)

Table 4 presents the most recent 48 months (4 calendar years) of Company data with run-out through February 2025. Paid and allowed claims are sourced from detailed claim records. The data in table 4 excludes capitations, settlements, and other claims paid outside of the system since that data is not considered in developing trend assumptions. The claim add-ons excluded are projected independently. The Table 4 data matches the data in Table 2 if the claim add-ons are added in. This data, combined with the data from other companies within Highmark’s corporate family, was used to develop the trends in Table 3. Please see Section 1.H above for further details.

2. Rate Development & Change

A. Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims (Table 5)

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Morbidity adjustment factor of 1.008 represents an adjustment from the experience period claims to the projection period.
- The Change in Demographics adjustment factor of 1.018 reflects the change in age and geographic factors the Company expects from the experience period to the projection period.
- The Change in Network adjustment factor of 0.999 reflects the change in the allowed claims the Company anticipates due to changes in in-network discount levels between the experience period and the projection period.
- The Change in Benefits adjustment reflects the change in the EHB benefits from the experience period and the projection period: 0.999.

Please see the worksheet named “Table 5 Support” in the “2026 Supplemental Exhibits - HCA_05152025.xlsx” file for the calculation of these factors from the Company’s experience period data and projected rate results.

The Company’s initial step in developing the index rates is to determine the expected covered membership for the rating period. The Company estimates the covered member base by adjusting for those groups known to have lapsed during the experience period, and those that are expected to lapse prior to the projection period. Then expected new business is added from groups with current transitional coverage moving to ACA plans, and groups currently with another carrier.

As the Company has seen through the transitional coverage availability period, many of the Small Group market customers have retained their pre-ACA coverage and have yet to join the ACA risk pool. With the transitional coverage provisions indefinite extension, the Company continues to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. The Company is expecting that enrollment decreases and that some of the better risk groups lapse. Also, with the continued availability of transitional coverage, the Company expects any new groups moving into ACA products from transitional coverage will be of higher morbidity.

The development of the Projected Paid to Allowed Ratio shown in Table 5 is presented in the “2026 Supplemental Exhibits – HCA_05152025.xlsx” file in the “Table 5 Paid-to-Allowed”

worksheet. This value is consistent with the paid-to-allowed ratio in the URRT Worksheet 2, line 4.15 Incurred Claims, divided by line 4.11 Allowed Claims.

Table 5 reflects that the Company is assuming a Projected Risk Adjustment transfer in the projection period of \$12.71 PMPM.

The Projected Paid Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2026, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for this Company. For this Company, all business will be offered Off Exchange in 2026, so there are no Exchange User Fees charged in the rate development.

Small Group Quarterly Rates

For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims. For this filing, quarterly rates are proposed, with rates adjusted each quarter as shown in the quarterly Annual Trends presented in Table 5A. Note that several adjustments are made to the Total Annual Trend from Table 3 to arrive at the quarterly Annual Trends shown in Table 5A, including:

- a. The Induced Utilization trend is excluded from the quarterly rate trends;
- b. The quarterly rate trends are further adjusted to remove the impact of the Company's cost saving initiatives that produce one-time savings;
- c. The timing of the renewals within the quarter are more appropriately considered;
- d. The quarterly rate trends more appropriately reflect that administrative costs do not increase at the same rate as claims.

B. Retention Items (Table 6)

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The administrative expenses and taxes and fees presented in the rate development in Table 6 cell C53 equal the Taxes and Fees in Table 10.

Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period and are developed from standard expense allocation methods. Agent/broker fees and commissions are the Company's anticipated costs for these items in the experience period.

The development of internal administrative costs utilizes an allocation of Company costs back to lines of business. The allocation method uses measurable stats such as claims worked, inquiries worked, contracts, and members to allocate the majority of expenses. When possible, expenses are direct charged if they can be identified by product instead of going through an allocation method. For corporate allocations, a TCI (total costs incurred) methodology is generally used to allocate by product.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This results in percent of premium expense loads that vary by plan.

The following Taxes and Fees were included in the rate development:

- \$0.34 PMPM for the PCORI Fee
- \$0.20 PMPM for the Risk Adjustment User Fee

Note the following regarding plan level retention items:

- The rate development reflects a 0% profit and risk load for all products and plans. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.
- Expenses for Quality Improvement Initiatives are estimated to be 6% of internal Company expenses, based upon historical analysis of these costs.

C. Normalized Market-Adjusted Projected Allowed Total Claims (Table 7)

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2025 values are pulled from the prior year's filing, while the 2026 values represent the Company's projection for 2026 assumed in the 2026 rate development.

The Age Factor is the weighted average of the Average Age Factors for the Current ACA Book of Business as of February 2025 and for the membership moving to the ACA Book (from transitional and new business).

The Geographic Calibration Factor is the weighted average of the Area Factors, weighted by the projected membership in each rating area.

The Tobacco Surcharge is not applicable since the Company does not use one.

D. Components of Rate Change (Tables 8 and 9)

Table 8 presents the components of change in the proposed 2026 Calibrated Plan Adjusted Index Rate (PMPM). The 2025 base period allowed claims is carried over from the 2025 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A, which is the more accurate percentage change based on the rate development.

Table 9 presents the data elements supporting the calculations in Table 8. The amounts shown in the 2025 Column match those entered in the 2025 Column in the plan year 2025 rate filing.

3. Plan Rate Development (Table 10)

Table 10 showing the plan rate development has been completed following the instructions in the 2026 ACA Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2026, as well as any plans discontinued from the 2025 portfolio for 2026. Since many Small Group market enrollees as of 2/1/2025 are still in plan year 2024 plans, the enrollees in plan year 2024 plans were mapped to the plan year 2025 plan that the Company anticipates they will renew into in 2025. Enrollees are then mapped from plan year 2025 plans to the plan year 2026 plan that the Company anticipates they will renew into in 2026. The calibrated plan adjusted index rates for 2026 and 2025, and all the supporting factors, are calculated according to the instructions.

Each plan takes the Market Adjusted Index Rate and multiplies by the Pricing AV, Benefit Richness Factor, Benefits in Addition to EHB Factor, Provider Network Factor, Catastrophic Eligibility Factor, and Non-Funding of CSR Adjustment Factor (not applicable to Small Group) in order to calculate the Pure Premium. The Pure Premium is then grossed up to account for expenses (Admin Costs, Taxes & Fees, and Profit or Contingency) in order to calculate the Calibrated Plan Adjusted Index Rate.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of the Company's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications are included as a separate attachment within the *Supporting Documentation* section in SERFF.

The requested Induced Utilization Exhibit was completed and is presented within the "2026 Supplemental Exhibits – HCA_05152025.xlsx" file submitted with this filing (worksheet named "Induced Utilization"). Note that the calculated Induced Utilization factor in Column (9) is a component of the Actuarial Value Allowable Modifier. As such, it is adjusted by the Average Benefit Richness normalization factor of 1.131. In multiplying the Induced Utilization column (9) result by the Average Benefit Richness normalization factor, the result is the Induced Utilization factor appropriate for the plan's metal level (before normalization). These induced demand factors are consistent with the methodology described in the Department's rate filing guidance, which utilizes each plan's actuarial value to establish the appropriate induced demand factor for the plan.

The member- and network-weighted average of the pure plan-level Induced Utilization factors in the last column of the induced utilization exhibit against the projected membership does match the 1.000 expectation of the Department. This calculation can be seen at the bottom of the Induced Utilization Exhibit, where the formulas used in the calculation have been retained.

The Child Capping Adjustment is applied to the Age Calibration Factor in Table 10 to reflect the limitation on the number of children allowed in rating. This factor is determined by estimating the

amount of lost revenue due to this restriction and applying the resulting factor to the normalized age factor in the base rate development.

Support for the calibration factors is shown in the “2026 Supplemental Exhibits – HCA_05152025.xlsx” file on the worksheet named “Table 10 Calibration Factors.”

4. Premium Development for 21-Year-Old Non-Tobacco User (Table 11)

Table 11 presents the Company’s 21-year-old non-tobacco premium in the Market for each rating quarter in 2026. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is a 16.9% increase.

Membership by county and plan as of February 2025 is included in Table 11.

5. Plan Factors

A. Age and Tobacco Factors (Table 12)

Please see Table 12 for the Company’s age and tobacco factors.

B. Geographic Factors and Adjusted Loss Ratios (Table 13)

Please see Table 13 for the Company’s geographic factors. The Company’s geographic factors for the rating period were updated as a component of this rate filing submission. The proposed geographic factors were developed based on a review of the average facility costs for PPO products by region, using a market basket approach to procedures by facility. Similar levels of professional and pharmaceutical costs were added to each region to get an appropriate allowed claim basis for the geographic factors. Note that since this analysis is based only upon PPO costs and facility schedules, these factors do not reflect morbidity differences among regions, nor do they reflect differences based on network discount levels. Per the Department’s rate filing guidance, data is provided in support of the development of a risk adjusted loss ratio for areas in which the factor is changing. Member-months are based on the experience period, premium amounts are adjusted for risk adjustment, and claim amounts reflect rebates and non-system claims.

As mentioned in the Cover Letter, the Company is not changing its product offerings by Rating Area.

C. Network Factors (Table 14)

Please see Table 14 for the Company’s network rating factors. The Company’s network factors for the rating period are unchanged from the currently approved factors.

D. Rate Change Summary (Table 15)

The Company requests an initial average rate increase of 16.9%. The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2025

and throughout 2026 because of both higher utilization and the increasing cost of healthcare services.

E. Service Area Composition

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14. The Company has submitted its current 2025 service area and its proposed 2026 service area in the file “Pennsylvania Counties Map – 2026 Filings – HCA.pdf” submitted with this filing. There are no proposed changes to the Company’s service area from 2025 to 2026.

F. Composite Rating

The Company is currently not planning to use CMS’s composite rating method for any of its off-SHOP plans offered during the rating period.

G. Connectivity Factors

The product filing does not have connectivity features.

6. Additional Tabs in the PAAM Exhibits

A. VIII MLR and Rebate Calc

Claims and premium data for the most recent 3 years, the current year, and the rating period have been provided to facilitate development of MLR and rebate calculations for each year. Grandmothered business experience is included in the data. The Federal rebate calculations may differ from those shown in the table to the extent group membership grows or shrinks during the policy period.

B. IX Retrospective Analysis

Table 17-1. Projected Historical Experience from the Plan Year 2025 Filing has been filled in with Table 4 data from last year’s filing. Table 17-2. Assessment of Actual to Projected for Paid Claims, Risk Adjustment, and Reinsurance has been filled in based on what was initially projected for the experience period two years ago, from the plan year 2024 filing.

7. Actuarial Certifications

I, [REDACTED], am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing for calendar year 2026 for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102)

- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that all factor, benefit, and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that any new plan is not a modification of an existing plan (per the uniform modification standards in 45 CFR 147.106).

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the URRT for all plans.

The Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges, and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2026 Rate Filing Justification.

Signed: [REDACTED]

Date: May 15, 2025

Standard Questions

2026 ACA Small Group Rate Filing

Highmark Coverage Advantage

SERFF Rate Filing #HGHM-134511838

1. Membership

- a. **If the projected membership for plan year 2026 significantly differs from the current 2/1/2025 membership, please explain why.**

Projected membership for plan year 2026 is lower than the current 2/1/2025 membership because the Company anticipates losing membership due to plan rates being priced less competitively in 2026.

2. Experience Period Claims

- a. **Please confirm that all claims which are capitated have been removed from the experience period claims.**

All claims which are capitated have been removed from the experience period claims.

- b. **Please confirm that all non-EHB claims have been removed from the experience period claims.**

All non-EHB claims have been removed from the experience period claims.

- c. **How are drug rebates projected to change from the base period to the rating period? How has this change been reflected in the rate development?**

Redacted.

3. Trend

- a. **If the Total Annual Trend in Table 3 (weighted by credibility) and the Annual Trend used to calculate quarterly rates in Table 5A differ, please provide an explanation and exhibit in support of the variation.**

As mentioned in the Pennsylvania Actuarial Memorandum, the quarterly rate trends are developed so that the resulting rates more appropriately reflect the claim costs and administrative charges expected in the quarterly rating periods, including the distribution of renewals expected within a rating quarter. Please see the “Quarterly Trend Support” tab in the “2026 Supplemental Exhibits – HCA_05152025.xlsx” file, which develops each quarterly trend factor from the annual trend assumption.

- b. **In Table 5A, if cells K32:M32 are left to equal J32, please explain why that is a reasonable assumption.**

N/A

4. Table 6 – Retention

- a. **Please confirm that the federal income tax is calculated using a Federal Income Tax Rate of 21%. If other adjustments were made in Table 6, cell C57, please provide a demonstration of how this number was calculated and an explanation of the other adjustments included in the calculation.**

A federal Income Tax Rate of 21% is included in our General Admin. No adjustments are made in Table 6, cell C57.

- b. **Please confirm that the Risk Adjustment User Fee PMPM is consistent with HHS Final Notice of Benefit and Payment Parameters for plan year 2026.**

A Risk Adjustment User Fee of \$0.20 PMPM was used, consistent with the HHS Final Notice of Benefit and Payment parameters for plan year 2026.

- c. **Please provide an exhibit showing the commission PMPM amount to be paid to brokers in the following situations: Open-Enrollment Enrollee – Renewing, Open Enrollment Enrollee – New, Special Enrollment Period Enrollee – New, Special Enrollment Enrollee – Renewing. If the commission PMPM is not consistent between the four options above, please provide a detailed explanation as to the reason for the difference.**

Redacted.

5. Pricing AVs

- a. **Please confirm that the Pricing AVs were calculated using a single risk pool (i.e., claims experience is not separated by metal level).**

The Pricing AVs were calculated using a single risk pool.

- b. **Please identify and support any differences between the company’s metallic AV calculator results and the corresponding Pricing AVs.**

The Company has an internal continuance table-based model to assist in development of the projected paid/allowed ratios. The company’s model is dependent on claim-line detail derived from our entire Western PA small group population along with the benefit information for each plan. The Company reviews the results and applies actuarial judgement to determine the final plan level projected paid/allowed ratios used within this rate filing.

6. Expanded Bronze Plans

- a. **Please provide an exhibit which demonstrates that the criteria for expanded bronze plans have been met.**

N/A

7. PAAM Exhibits – Consumer Factors

- a. **Please provide quantitative and qualitative support for the proposed geographic rating area factors, if different from the previous year.**

The Company has experienced an increase in normalized cost in geographic rating area 1 relative to rating areas 2, 4, 5, and 6. We have raised the factor of geographic rating area 1

to account for this unfavourability. The table below summarizes the 2025 factors, the proposed 2026 factors, and the change.

Geographic Rating Area	2025 Approved Factor	2026 Proposed Factor	% Change
1	0.864	0.881	2%
2	1.006	1.006	0%
4	1.006	1.006	0%
5	1.020	1.020	0%
6	1.080	1.080	0%

- b. Please provide quantitative and qualitative support for the proposed network factors, if different from the previous year.**

Network rating factors have not changed from 2025.

8. Plan of Withdrawal

- a. Please confirm that a Plan of Withdrawal has been submitted if any plans are being discontinued.**

No plans are being discontinued.

9. Copay Adjustment Program

- a. Does the company use a copay adjustment program (also known as a copay accumulator program)?**

Yes, Highmark does use a copay adjustment program.

- i. If the company uses a copay adjustment program, please provide a detailed narrative that describes how the program works and the motivation behind implementing the program.**

Copay Armor is a voluntary copay assistance program (“Program”) administered by the vendor PillarRX. The Program is part of Highmark’s integrated pharmacy benefit to make high-cost medications more affordable to the Member and Plan. The Program works by taking advantage of manufacturer assistance dollars for certain specialty prescription drugs and other high-cost prescription drugs as designated by PillarRX (“Eligible Medications”) to lower Members’ out-of-pocket prescription costs.

The Program is available through all HCA fully insured small group non-high deductible health plans.

In the event that a Member elects to enroll in the Program, PillarRX will work with such Member to secure manufacturer assistance for Eligible Medications. The manufacturer assistance is applied at the point of sale (e.g. at the Pharmacy Provider). As a result, the Member will be liable for a copayment maximum of \$50, depending upon the specific manufacturer assistance available. In no event will a Member’s cost-sharing obligations under the Program be higher than the Member’s cost-sharing obligations through their insurance plan.

Members who exhaust manufacturer assistance for a particular Eligible Medication will continue to be subject to the same copayment obligations that they would have been, had they not exhausted manufacturer assistance.

Amounts paid or credited by the Program will not accrue toward the satisfaction of the Member’s deductible or out-of-pocket maximum when paid by manufacturer assistance. All cost-sharing amounts paid by the Member will accrue toward the satisfaction of the Member’s deductible or out-of-pocket maximum.

b. How does the company handle copay assistance coupons? For example, does the coupon apply to the MOOP?

The copay assistance does not count toward the MOOP. Claims process at a fixed percentage cost sharing amount for each claim. The manufacturer assistance is then used to satisfy that cost sharing amount to the extent possible. If the manufacturer assistance does not completely cover the cost sharing members may have a small cost sharing amount they need to cover.

c. If any change to such a program has resulted in a pricing impact, please include a narrative describing how the impact has been included within the rate development and a detailed quantitative exhibit supporting the pricing impact.

Pricing Impact of Copay Adjustment Program		
Component	CY24	PY26
Gross Savings	\$2.88	\$0.00
Vendor Fees	\$(0.35)	\$0.00
Net Savings	\$2.53	\$0.00
Projected Reduction in Net Savings¹:		\$2.53

¹Reflected as increase in Projected PtA since copay adjustment program does not impact Allowed Claims

10. PBM and Act 77 of 2024 Compliance

- a. **Is the PBM handling any part of the negotiations that impacts the cost of drugs?**
Redacted.
- b. **What is the email address, name, and phone number for the PBM contact?**
Redacted.
- c. **What is the amount of funds the PBM recouped from pharmacies due to Scrivener’s errors?**
Redacted.
- d. **Use the same pharmacy for all affiliated data. Use the same pharmacy for all non-affiliated data. In Table 18 of the PAAME, using last year’s PA claims data:**
 - i. **Complete cells P7-R16 to show the minimum, maximum, and average allowed amounts paid by the PBM to a retail pharmacy that is affiliated to the PBM.**
 - ii. **Complete cells S7-U16 to show the minimum, maximum, and average allowed amounts paid by the PBM to a retail pharmacy that is not affiliated to the PBM.**

- iii. Complete cells V7-X16 to show the minimum, maximum, and average allowed amounts paid by the PBM to an entity participating in the program under section 340(B) of 58 Stat. 682. 42 U.S.C. Section 256(B).
- iv. Complete cells Y7-AA16 to show the minimum, maximum, and average allowed amounts paid by the PBM to an entity not participating in the program under section 340(B) of 58 Stat. 682. 42 U.S.C. Section 256(B).
- v. Complete cells AG7-AI12 to show the minimum, maximum, and average allowed amounts paid by the PBM to a retail pharmacy that is affiliated to the PBM.
- vi. Complete cells AJ7-AL12 to show the minimum, maximum, and average allowed amounts paid by the PBM to a retail pharmacy that is not affiliated to the PBM.

Redacted.

e. The following questions pertain to rebates:

- i. Please provide the total amount of rebates remitted to the PBM in cell AO5 of Table 18.
- ii. Please provide the total amount of funds (rebates, etc.) remitted to the insurer by the PBM for the previous claim year in cell AO6 of Table 18. If there are funds in addition to the rebates, please specify what those funds represent.
- iii. Please provide the total amount of rebates remitted to the insurer by the PBM for the previous claim year in cell AO7 of Table 18.

Redacted.

f. What is the percent of rebates remitted to the insurer by the PBM for the previous claim year based on your response to parts i and iii above? Please confirm that this answer matches cell AO8 of Table 18.

Redacted.

g. Does the health plan have an arrangement with the PBM where the insurer has to meet specific contract requirements, such as reaching a threshold of filled scripts?

Redacted.

- i. If yes, what is the total amount of funds remitted for the previous claim year to the PBM by the insurer for unexpected fees, penalties, etc.? Please state this value in cell AO10 of Table 18.

Redacted.

h. In aggregate for the previous claim year, how much funds in total were received from non-affiliate pharmacies for post-sale or retroactive Direct and Indirect Renumeration?

Redacted.

i. In aggregate for the previous claim year, how much funds in total were received from affiliate pharmacies for post-sale or retroactive Direct and Indirect Renumeration?

Redacted.

9			0

The company expects its annual medical costs to increase:

10.56%

Explanation of requested rate change:

The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2025 and throughout 2026 because of both higher utilization and the increasing cost of healthcare services and prescription drugs.

1. Medical Loss Ratio Numerator						
1.2 Adjusted incurred claims	\$215,702,070	\$39,684,566	\$68,981,911	\$107,035,594	\$100,992,001	\$97,522,513
1.3 Improving Health Care Quality Expenses	\$1,481,777	\$289,049	\$492,289	\$700,439	\$712,761	\$676,474
1.4 Reconciled payments of cost-sharing reductions	\$0	\$0	\$0	\$0	\$0	\$0
1.5 Federal Transitional Reinsurance Program payments from HHS	\$0	\$0	\$0	\$0	\$0	\$0
1.6 Federal Risk Adjustment Program net payments expected from HHS / (charges payable to HHS)	\$7,453,298	\$4,104,890	\$1,732,301	\$1,616,107	\$1,547,008	\$1,499,124
1.8 Shared Savings payments to enrollees	\$0	\$0	\$0	\$0	\$0	\$0
1.9 MLR numerator	\$209,730,549	\$35,868,725	\$67,741,899	\$106,119,925	\$100,157,754	\$96,699,863
2. Medical Loss Ratio Denominator						
2.1 Premium earned including Federal and State high risk programs and adjusted for net premium stabilization program payments / (charges)	\$237,330,201	\$46,384,680	\$78,811,266	\$112,134,255	\$114,106,980	\$108,297,788
2.2 Federal and State taxes and licensing or regulatory fees	\$0	\$0	\$0	\$0	\$0	\$0
2.3 MLR Denominator (Lines 2.1 - 2.2)	\$237,330,201	\$46,384,680	\$78,811,266	\$112,134,255	\$114,106,980	\$108,297,788
3. Credibility Adjustment						
3.1 Life-years	32,514	6,076	10,919	15,519	14,935	14,046
3.2 Base credibility factor	1.3%					
3.3 Average deductible	\$0					
3.4 Deductible factor	1.000					
3.5 Credibility adjustment (Lines 3.2 x 3.4 (do not round))	1.3%					
4. MLR Calculation (for issuers with at least 1,000 life years in the Total column of Line 3.1)						
4.1 Preliminary MLR (Lines 1.9 / 2.3)	88.4%	77.3%	86.0%	94.6%	87.8%	89.3%
4.2 Credibility adjustment (Line 3.5, if applicable)	1.3%					
4.3 Credibility-adjusted MLR (Lines 4.1 + 4.2)	89.7%					
5. Rebate Calculation						
5.1 MLR standard	80.0%	80.0%	80.0%	80.0%	80.0%	80.0%
5.2 Credibility-adjusted MLR (Line 4.3)	89.7%					
5.3 Adjusted earned premium (Lines 2.1 - 2.2 CY)	\$112,134,255					
5.4 Rebate amount if credibility-adjusted MLR is less than MLR standard (Lines (5.1 - 5.2) x 5.3)	\$0.00					

Life Years	Base credibility factor
-	0.0%
1,000	8.3%
2,500	5.2%
5,000	3.7%
10,000	2.6%
25,000	1.6%
50,000	1.2%
75,000	0.0%

Average Health Plan Deductible	Deductible factor
\$0	1.000
\$2,500	1.164
\$5,000	1.402
\$10,000	1.736

Table 17-1. Projected Historical Experience from the Plan Year 2025 Filing

Part II of the Preliminary Justification

Highmark Coverage Advantage (HCA) – Small Group Market

Scope and Range:

Highmark Coverage Advantage (HCA) is requesting a weighted average rate increase of 19.0% across 28 renewing plans shown in the Unified Rate Review Template for its 2026 Small Group ACA products with effective dates from January 1, 2026 to December 31, 2026. This will impact 17,916 individuals.

Due in part to changes in benefits and plan design pricing relativities, 26 renewing plans will be seeing a cumulative rate increase greater than 15%, ranging from 16.9% to 21.7% as shown in the Unified Rate Review Template.

The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2025 and throughout 2026 because of higher utilization and the increasing cost of healthcare services.

Historical Financial Experience:

HCA's Small Group ACA segment reported a financial loss in 2024. The proposed average rate increase of 19.0% is projected to improve HCA's financial experience from a loss in 2024 to 0% operating margin in 2026.

Change in Medical Service Costs:

The projected average cost of medical care for the projected population is expected to increase. The increase will emerge in utilization and average cost per service and is spread across all types of services.

Change in Benefits:

The relative value of plan benefits can change over time as result of shifting care utilization patterns and the cost of services. Additionally, some cost sharing parameters are directly altered based on market dynamics as well as to maintain compliance with Federal AV requirements. This results in cumulative rate increases that vary by plan around the average of 19.0%. Among HCA's 28 renewing plans in 2026, the cumulative rate increases range from 14.2% to 21.7%, as shown in the Unified Rate Review Template.

Administrative Costs and Anticipated Margins:

Key components of administrative cost include broker commissions and general operating expenditures. The anticipated operating margin for 2026 is 0%.

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for Highmark Coverage Advantage (HCA) (“HCA”, “Company”) Small Group block of business rate filing (“Filing”), for products with effective dates in calendar year 2026. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of HCA’s Filing. However, we recognize that this certification may become a public document. HCA makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by HCA that would result in the creation of any duty or liability under any theory of law by HCA or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ due to reasons such as population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: Highmark Coverage Advantage (HCA)
- State: The Commonwealth of Pennsylvania has regulatory authority over these policies
- HIOS Issuer ID: 79279
- Market: Small Group
- Effective Date: January 1, 2026

II. Proposed Rate Changes

Please refer to the Pennsylvania Actuarial Memorandum and Exhibits submitted with this filing for a breakdown of the component items driving the first quarter rate change.

For all rate increases by plan, see the ‘Cumulative Rate Change % (over 12 mos prior)’ found in line Worksheet 2, 1.11 of the URRT. The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These components are re-evaluated each year each year to keep pace with changes in the market and in health care costs. For 2026, the

Company's proposed rate revisions vary by plan per the detail presented in the URRT, Worksheet 2.

HCA is submitting an average 19.0% rate change for 2026.

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company's expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2026. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA. As a result, HCA reserves the right to submit a revised filing.

III. Experience and Current Period Premium, Claims, and Enrollment

III.1 Paid through Date:

Experience period claims were based on incurred calendar year 2024, paid through February 2025. This experience includes 2024 experience in Affordable Care Act compliant plans. HCA's transitional plan experience for 2024 has not been included in the experience period data.

III.2 Current Date:

The current date used for enrollment and premium is 2/1/2025.

III.3 Allowed and Incurred Claims Incurred During the Experience Period:

- Historical Experience: The URRT historical experience section was completed with HCA's experience for the small group block of business for the period January 1, 2024 through December 31, 2024, with claims paid through February 2025.
- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows the Company's best estimate of the amount of claims that were incurred during the 12-month experience period for HCA's small group book-of-business. This section includes:
 - The amount of claims which were processed through the Company's claims system,
 - Claims processed outside of the Company's claims system (Rx rebates, settlements, capitated benefits), and
 - The Company's best estimate of claims incurred but not paid as of the Paid through Date stated above.
- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from HCA's detailed claim-level historical data. This

experience includes 2024 claims in Affordable Care Act compliant plans. HCA's transitional plan experience for 2024 has not been included in the experience period data. For capitated and other off-system claims, historical capitations and experience were tabulated and added to the claims.

- **Paid Claims:** Paid claims were summarized from detailed member records. The paid-to-allowed ratio for the experience period reflects the underlying benefit plan designs chosen by each member.
- **Incurred but Not Paid (IBNR) Claims Estimate:** HCA's estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.977 was developed for HCA's total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

IV. Benefit Categories

Experience period claims data were pulled from the Company's claims systems and categorized into benefit category components according to types of services associated with each claim. The resulting categories closely adhere to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics.

V. Projection Factors

V.1 Trend Factors (cost/utilization)

This development of the CY 2026 rates reflects an annual medical trend rate of 9.32% (4.60% cost; 4.51% utilization) and an annual prescription drug trend rate of 14.92% (11.11% cost; 3.43% utilization). To arrive at the medical and prescription drug trend assumptions, the experience period cost and utilization data for each claim type were pulled from the Company's claims systems by the defined benefit categories. For the trend components development, the Company uses results from the combined experience of the following companies within the Highmark corporate family: Highmark Inc. and Highmark Coverage Advantage. The combined experience used is limited to the Company's Rating Area and Market and provides a more material base to analyze the trend components impacting the business in the Company's Market. The medical and prescription drug trend developments each use a projection of allowed claim PMPMs that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or anticipated, are factored into the cost components of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

The allowed medical and prescription drug claims used for the development of their respective trends are adjusted and normalized to obtain a claim basis appropriate for trend development. These adjustments may include changes for in-network provider contracting levels, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates may normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. The types of adjustments for medical and prescription drug vary slightly but are chosen based on the appropriate normalizations required for each respective claim type. The normalized and adjusted claim progressions are then used to provide the basis for the Company's trend regression models, which are used to separately establish the Company's medical and prescription drug rating trends.

The regression trend models are used to smooth out noise in the historical claim levels and to provide an appropriate jumping off point for projected claim levels. Using the factors discussed above to adjust projected claim levels, appropriate assumptions for medical and prescription drug trends were established using the experience period claim levels as the starting points. Since historical experience would encompass the expected coverage and demographic makeup of the membership, historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trends for this block of business.

For the rate development, the Company uses separate medical and prescription drug claim trends and applies them to the respective service claims in the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

In addition to the trend in medical and drug claims discussed above, the trend reflects changes in anticipated costs for claims processed outside of the Company's claims system, including Rx rebates and settlements. The Company does not have any benefits covered by a capitation arrangement, and as such, does not have a capitation trend rate.

V.2 Morbidity Adjustment

The morbidity adjustment reflects the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors) from the experience period to the rating period. As the Company has seen through the transitional coverage availability period, many of the Small Group market customers have retained their pre-ACA coverage and have yet to join the ACA risk pool. With the transitional coverage provisions extended indefinitely, the Company continues to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. The Company has observed that the groups currently enrolled are of higher morbidity than the groups that have lapsed and has reflected that difference in the morbidity adjustment.

Total Morbidity Adjustment

In total, the Company expects that morbidity will worsen from the experience period. For the development of the CY 2026 rates, this is reflected with a 1.008 Adjustment factor in the URRT Worksheet 1.

V.3 Demographic Shifts

The Company is expecting a slight increase in the average age from the experience period to the projection period as the average age factor for our current business is higher than that in the experience period. For the development of the CY 2026 rates, this is reflected with a 1.018 Demographic Shift factor in the URRT Worksheet 1.

The average area factor is expected to increase slightly, and this change makes up the majority of the impact to the demographic shift factor.

V.4 Plan Design Changes

The following factors were applied to reflect the expected differences in benefits between the experience period and projection period:

- Anticipated changes in the average utilization of services due to differences in average cost sharing requirements during the experience period and average cost sharing requirements in the projection period: 0.999
- Change in network benefits: 0.999
- Newly mandated benefits required under state law, which are not reflected in the experience period claims: 1.000 (none)
 - New benefits that are not part of the essential health benefit package or required under state law that did not exist in the experience period claims: 0.999
- The removal of benefits covered in the experience period claims that will not be covered in the projection period: 1.000

For the development of the CY 2026 rates, the combination of the above factors produces a 0.998 Plan Design Changes factor in the URRT Worksheet 1.

V.5 Other Adjustments

The Company's rate development for 2026 does not utilize any additional adjustment factors other than those discussed above. As such a 1.000 factor is shown for the Other adjustment factor in the URRT Worksheet 1.

VI. Manual Rate Adjustments

HCA’s small group experience is fully credible (see Credibility of Experience section below); no manual rate is developed or used in this projection.

VII. Credibility of Experience

The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably “A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing,” as well as utilizing actuarial judgment in consideration of the Company’s base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership for currently active members for this Company is 15,518, full credibility has been assigned to the base experience period.

VIII. Establishing the Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for HCA. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

2026	% of Members	Projected Quarterly Index Rate PMPM
1Q	37.9%	\$825.86
2Q	11.8%	\$847.86
3Q	14.9%	\$866.42
4Q	35.4%	\$893.35
Composite	100.0%	\$858.39

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

IX. Development of the Market-wide Adjusted Index Rate

The limitations imposed by verifications and rounding in the URRT v6.1 workbook produce a Market-wide Adjusted Index Rate that is slightly different from the one ultimately used in the rate development. Please see Exhibit I for a numerical demonstration of the Market-wide Adjusted Index Rate development that removes these limitations, including the Reinsurance, Risk Adjustment Payment/Charge, and Exchange User Fees discussed below.

IX.1 Reinsurance

HCA does not have any reinsurance contracts in effect that would impact this rate development. The consideration for the federal high-cost risk pooling program is discussed in the following Risk Adjustment Payment/Charge section.

IX.2 Risk Adjustment Payment/Charge

To arrive at the anticipated risk transfer for 2026, the Company determines the risk adjustment calculation components for the projected 2026 Company portfolio and uses its current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2024 Benefit Year published by CMS, the PA Insurance Department's calculation of 2024 risk adjustment transfer amounts using the final RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. For 2026, the Company is projecting a risk adjustment transfer amount of \$17.35.

The \$14.55 PMPM value in Worksheet 1 of the URRT equals the \$17.35 PMPM risk adjustment transfer value discussed above, along with a charge of \$5.89 PMPM for the projected cost of participating in the High Cost Risk Pool program as well as an anticipated transfer from the program of \$1.24 PMPM. This total risk adjustment transfer amount of \$12.71 is then grossed up by the average paid to allowed ratio of 0.874 to arrive at the appropriate value for the URRT.

IX.3 Exchange User Fees

The projected Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2026, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for the Company. For the Company, all business will be offered Off Exchange in 2026, so there are no Exchange User Fees charged in the rate development.

X. Plan Adjusted Index Rates

The Plan Adjusted Index Rates can be found on line 3.10, Worksheet 2 of the URRT. The Plan Adjusted Index Rates are calculated by applying the allowable rating factors as described below to the Market-wide Adjusted Index Rate. Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan.

X.1 AV and Cost Sharing Design of Plan

The AV and Cost Sharing allowable rating factor is comprised of the following components:

- The utilization due to differences in cost sharing is based on the factors calculated using a methodology prescribed in the Department's guidance relative to the weighted average. No differences due to health status are in these adjustments.

- The pricing AV for the benefits and cost sharing of the plan.

X.2 Provider Network Adjustment

The provider network adjustments are developed by dividing the plan level network factors by the overall weighted average from all plans.

X.3 Benefits in Addition to EHB

Only the expected costs of essential health benefits (EHB) are included in each of the Company's plans.

X.4 Administrative Expense

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on standard expense allocation methods, as follows:

- Administrative expenses are recorded in the general ledger. Indirect operating expenses are then grouped based upon like functions, responsibilities or cost drivers and allocated to final cost objects via an appropriate cost driver.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

X.5 Taxes and Fees

The following taxes and fees were included in the 2026 rate development:

- \$0.34 PMPM for the PCORI Fee
- \$0.20 PMPM for the Risk Adjustment User Fee

In total, these taxes and fees amount to 0.07% of the anticipated premium collected in 2026.

X.6 Profit & Risk Load

The proposed rates reflect 0% of premium as a profit and risk load. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.

XI. Calibration

XI.1 Age Curve Calibration (to age 21, non-smoker, area with 1.0 geographic factor, January 1 effective date)

The projected weighted average age factor is 1.499. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor is 1.499). Please note that no member will pay these rates because the age factor of 1.499 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. Please see Exhibit I for the development of the calibration factor, which calibrates the index rate to an Age 21 age factor. The Age Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average age factor, which for HCA is 0.667.

XI.2 Geographic Factor Calibration

The projected weighted average geographic factor is 0.952. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 0.952. Please note that no member will pay these rates because HCA is not using a geographic factor of 0.952 for any of the Pennsylvania rating areas. It only represents the average geographic factor of the projected population. Please see Exhibit I for the development of the calibration factor. The Geographic Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average geographic factor, which for HCA is 1.050.

XI.3 Tobacco Use Rating Factor Calibration

The Company does not currently utilize tobacco rating factors.

XII. Consumer Adjusted Premium Rate Development

The Calibrated Plan Adjusted Index Rate shown in URRT Worksheet 2 represents the rate for a non-smoker member with a 1.0 age factor and 1.0 geographic factor for a 1/1/2026 renewal. The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I or the calibration factors in 3.11, 3.12 and 3.13 of URRT Worksheet II Section III to the Plan Adjusted Index Rates, the resulting value will represent the plan premium for a 21 year old in a 1.0 area on 1/1/2026. The standard HHS Age Curve and area factors of 0.881 for region 1; 1.006 for regions 2 and 4; 1.020 for region 5; and 1.080 for region 6 can be used to calculate any rate found in the QHP rate template.

The Company is filing quarterly Index Rate trends that vary by quarter. Subsequent quarterly rates can be developed by multiplying the first quarter rates by 1.027 for second quarter rates; 1.049 for third quarter rates; and 1.082 for fourth quarter rates. Please refer to the Pennsylvania Actuarial Memorandum submitted with this filing for additional commentary related to the development of these quarterly Index Rate trends.

XIII. Projected Loss Ratio

The anticipated medical loss ratio reflected in this annual rate change filing is 89.3% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

XIV. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of the Company's QHP application.

XV. Membership Projections

Since transitional policy relief has been extended indefinitely, the Company projects that the bulk of the members in the small group market will remain outside of the ACA-compliant products and remain outside the ACA single-risk pool. Any new business anticipated in HCA will come primarily from current ACA customers. HCA is expecting a decrease in its ACA membership from the experience to the projection period. See line 4.9 of the URRT Worksheet 2 to see projected membership by plan.

XVI. Terminated Plans and Products

HCA is not terminating any plans that were active in the 2024 experience period or offered thereafter.

XVII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe the Company's plans adequately.

XVIII. Actuarial Certification

I, [REDACTED], am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of HCA to accompany its rate filing (for calendar year 2026) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102);
- Developed in compliance with the applicable Actuarial Standards of Practice;

- Reasonable in relation to the benefits provided and the population anticipated to be covered;
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the Unified Rate Review Template for all plans. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by HCA to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

Signed: [REDACTED]
